

To whom it may concern,

It is my desire to let you the importance to me, that my favorite radio station, KLOVE not to be displaced by an LPME broadcaster. I listen to this positive, uplifting station on my daily, 30 minute commute to work and again on the way home. Having a station that focuses on the positive aspects of the world we live in, is indeed in the best interest of the public. I shudder at the thought of not being able to have this great station within listening range. Please carefully consider the negative impact a Low Power service will have on this wonderful station that positively impacts the very rural community in which I, and many others live.

Sincerely,

Jane Palmer RN
